DATE OF BIRTH: 29 July 1995

Address: 78/1 Mithapur Part-II Badarpur
Email: aakashgtm007@gmail.com

PROFILE

Passionate developer specializing in React.js, React Native and Flutter, aiming to contribute to impactful products through clean code, performance optimization, and seamless user experiences. Looking for a role where I can grow with a forward-thinking team and build cross-platform applications that make a difference.

EDUCATION

2019- D.A.V Institute of Management, Faridabad — *MCA*
2017- D.A.V Centenary College, Faridabad — *BCA*

EXPERIENCE (5 Year)

myClassroom, Noida —Sr. Application Developer

OCT 2021 - April 2025

React.js, React-Native (Android), Node.js (Express), Django, pgAdmin, Firebase, Maps, FCM, Moengage, Analytics, CodePush, Sentry, Yolo, Python

➤ Led development of **React Native (Android)** and **React.js** apps with **Node.js**, **Django**, and **Firebase** backend integrations.
➤ Worked on features like **Maps**, **FCM**, **MoEngage**, **Analytics**, **CodePush**, **Sentry**, and **YOLO-based detection**.
➤ Handled full-stack responsibilities across **frontend, backend, and deployment** with performance monitoring.

RDIAS , Pitampura — Application Developer (Android/iOS)

July 2023 - April 2025

➤ Handled **design, development, and deployment** of RDIAS and **RDPSP** React Native apps.
➤ Managed **updates**, **cross-platform compatibility**, and **feature implementation** for Android & iOS.

SKILLS

Proficient in cross-platform app development using **React Native**, **Flutter**, **Android**, and **iOS** with deployments via **Play Console**, **Xcode**, and **App Store Connect**. Skilled in **React.js**, **HTML**, **CSS**, **Redux** for frontend, and **Node.js (Express)**, **Django**, **Firebase**, **SQL**, **Sequelize** for backend. Experience with **YOLO**, **Python** for AI tasks, and tools like **pgAdmin**, **Jira**, **Heroku**, **Netlify**, and **Vercel**.

AWARDS

Year 2018 - Won 2nd position in App-A-Thon

Year 2016 - Participated in App-A-Thon competition

JOB ROLE/Responsibilities

1. Develop and maintain cross-platform mobile applications using React Native for Android and iOS.
2. Build scalable and responsive web applications using React.js with clean, reusable components.
3. Implement API integration with backend services using Node.js, Django, and Firebase.
4. Manage state management using Redux and custom hooks to ensure optimal performance.
5. Ensure secure authentication flows, including role-based access and protected routes.
6. Integrate third-party services like Zoom SDK, Razorpay, Firebase Cloud Messaging (FCM), and MoEngage.

Ragpam Education Pvt. LTD, Faridabad — *Android Developer*

FEB 2021 - OCT 2021

➢ Worked on a **Flutter app** with full responsibility for **UI design** and **deployment**.

➢ Integrated features like **live video streaming (Zoom SDK)**, **Razorpay**, **test-series**, and **multi-role login** (student, teacher, support).

UE Developer, Badarpur — *Android Developer (Internship)*

3-Month MCA Major Project Internship

● Built Android app using **Java** and **Firebase** as backend.

● Gained hands-on experience in **authentication**, **database integration**, and **app deployment**.

7. Optimize apps for performance and user experience through responsive design, animations, and CodePush updates.
8. Use tools like Git, Sentry, and Analytics for version control, error tracking, and performance monitoring.
